Lists and Checklists

<code>-</code> (followed by space)	Create an unordered list.
<code>1.</code> (followed by space)	Create an ordered list.
<code>{{[[TODO]]}}</code> or <code>{{[[DONE]]}}</code>	Create a TODO or DONE tag. Can use <code>Ctrl+Shift+C</code> to toggle.

Advanced Features

Queries

Queries allow you to search and display blocks based on specific criteria.
Basic Query: <code>{{query: {and: [[Page Name]]}}}</code> - Displays blocks linked to 'Page Name'.
Advanced Query (using TODO): <code>{{query: {and: [[TODO]] {not: [[DONE]]}}}}</code> - Displays blocks tagged as TODO but not DONE.

Templates

Templates allow you to quickly insert pre-defined content.
Create a Template: <ol style="list-style-type: none">Create a page named <code>roam/templates</code>.Add blocks under this page representing your templates.
Use a Template: Type <code>;template_name</code> (e.g., <code>;meeting</code>) and press <code>Tab</code> to insert the template.

Daily Notes Page

The Daily Notes Page is your home for each day's notes. Access it with <code>Ctrl+H</code> .
Tips: <ul style="list-style-type: none">Use the date as a central hub for all activities and thoughts for that day.Link to projects, people, and ideas as they come up.Use queries to pull relevant information into your daily notes.

Collaboration

Sharing
